

Business Transformation

With AI Automation

Who We Are

iSynergy partners with enterprises to reimagine operations through secure, AI-powered transformation strategies that reduce complexity, boost efficiency, and drive growth. Our solutions combine enterprise-grade security, scalable architecture, and future-ready design - helping your business stay ahead in a rapidly evolving digital world.

Why Choose iSynergy

18+ Years of Digital Innovation

Trusted by **75+** Global Enterprises

Presence Across **4** Continents

Core Offerings

Secure Intelligent Process Automation

AI, RPA, and analytics to streamline mission-critical workflows with a focus on security

Cloud & Hybrid Engineering

Resilient, secure solutions built on cloud for scalability and speed

Product Innovation Labs

Discovery to deployment, driving faster product delivery

Digital Modernization

Legacy migration, optimization, and future-ready systems

Use Cases

1. B2B Sales Enablement

Challenge: Inefficient outreach and low-quality leads

Solution: AI segmentation with personalized engagement campaigns

Result: 10% - 20% uplift in revenue after 12 months

2. Working Capital Optimization

Challenge: Manual reconciliation results in delayed reporting

Solution: Automated anomaly detection and reconciliation bots for faster, more accurate close cycles

Result: 20-40% cost reduction in finance operations and a 5-15% increase in profitability within 12 months

3. Supply Chain Optimization

Challenge: Unpredictable demand and waste

Solution: AI optimizes flow and cost

Result: 10-25% inventory cost reduction, 15-30% faster order fulfillment, and 5-10% on shelf availability and reduced out of stock

Our Edge

We are not traditional consultants that focus on a single domain, iSynergy expertly blends business consulting rigor with hands-on engineering execution.

Our clients benefit from

Business consulting expertise

to deeply understand the problem

Agile, lean and scalable delivery

for step-by-step success and accelerated time-to-market

Enterprise-grade reliability & security

with global delivery experience

Let's explore how **secure AI-powered transformation** can
• redefine your business operations
